

HOW TO ASSEMBLE YOUR TUMBLING FLOWER SPINNER

Parts

These are the parts that should come in the box:

Installation: Pole Anchoring

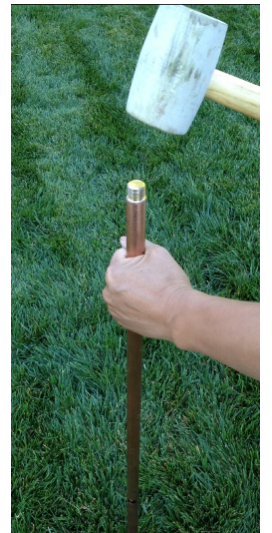

STEP 1.

Gather these parts: one pole with beveled edge and three support stakes.

STEP 2.

Hammer the main pole into the ground using a **Rubber Mallet** until the black line touches the ground (about 1 ft. deep).

* We recommend you use [blue Loctite thread locker](#) if in windy area

Installation: Pole Anchoring

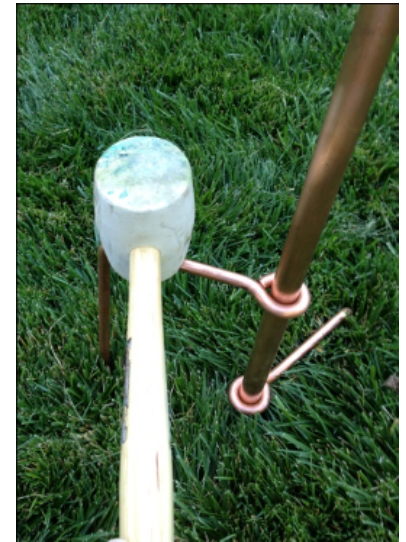

STEP 3.

Slide a support stake into the main pole and hammer it into the ground.

STEP 4.

Slide a second support stake into the main pole. Position it ~120 degrees away from the first stake and hammer it into the ground.

STEP 5.

Slide a third support stake on to the main pole. Position it evenly away from the first two stakes and hammer it into the ground.

STEP 6.

STEP 7.

Connect the three sections of the pole together. When all is done, the trademark "**Stanwood Wind Sculpture**" engraved on the top section should be legible from the bottom up.

*Check all screw tightness periodically, and tighten if needed

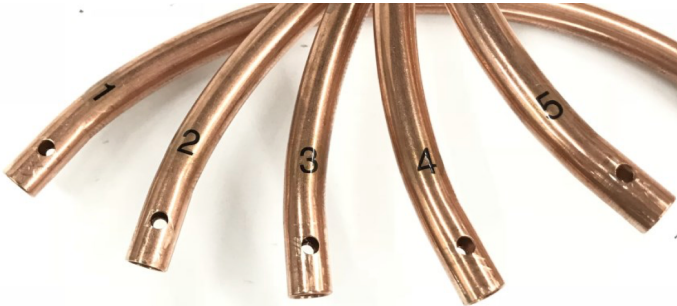

Stanwood Wind Sculpture ↑

Installation: Tumbling Flower Spinner

STEP 8.

Arrange the flower stems according to the numbering on the brass hub.

STEP 9.

Arrange the flower stems according to the numbers on the brass hub.

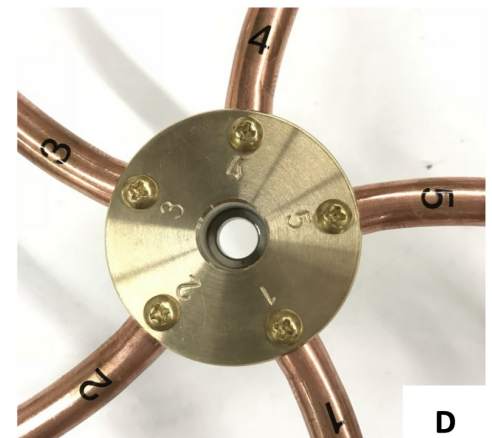

Align the hole on the stem with the hole on the hub Fig. B.

Lock the stem to the hub using provided spring washers and screws. Screw in manually as tight as possible Fig. C. **DO NOT USE POWER TOOL!**

Finished wheel assembly Fig. D. Repeat on the other wheel.

Pay close attention to numbers "6" and "9" on the stem, do not mismatch.

Installation: Tumbling Flower Spinner

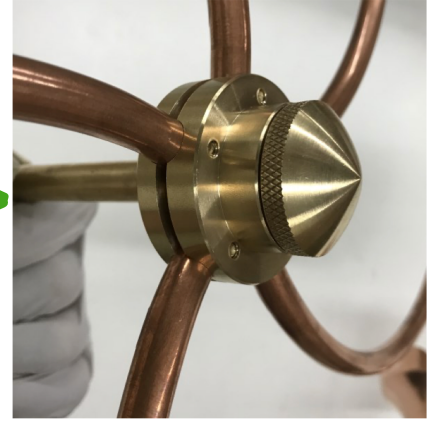

STEP 9. (cont.)

Finished wheel assembly.

STEP 10.

Place the assembled wheel with the numbering facing inside towards the brass T-Bar. Repeat on the other side. Screw on the mushroom caps.

STEP 11.

Slide the brass T-bar onto the pole.

*Check all screw tightness periodically, and tighten if needed

STEP 12.

Done.
